- Jira

PROFILE

Results-driven Software Engineer with over five years of experience in full-stack web development, specializing in Python, JavaScript, and TypeScript. Proficient in designing and implementing scalable, user-friendly applications, including landing pages, CRM systems, and ERP solutions. Skilled in modern frameworks (e.g., Django, React) and DevOps practices, with a proven track record of delivering high-quality, well-tested code that enhances system performance and user satisfaction. Adept at collaborating with cross-functional teams to meet project deadlines and exceed business goals.

WORK EXPERIENCE

FIXWORKS LLC, UAE, Dubai
Lead Software Engineer
MARCH 2024 - FEBRUARY 2025

- SEO-Optimized Landing Pages

  Built landing pages (e.g., fixworks-team.com, fixworks-parquet.com, fixworks-marble.com) with Next.js and FastAPI, Django increasing online visibility by 50% and improving SEO rankings.

- Custom CRM System

  Developed a CRM system using: Express js, React js, PostgreSQL and RabbitMQ, automating workflows and reducing data processing time by 30%.

- Telegram Bot Integration

  Created a Telegram bot for real-time notifications, cutting customer response time by 40% and enhancing support efficiency.

Transmed LLC, Ukraine, Kiev
Full Stack Developer
FEBRUARY 2023 - FEBRUARY 2024

- Created a responsive landing page (transmed.com.ua) and a custom ERP system with Dockerized microservices to manage inventory and invoicing.
- Automated data entry tasks within the ERP using Python and MySQL, streamlining operations.
- Set up a secure SMTP/IMAP corporate email system for company-wide communication.

CompassWay org, Ukraine, Kiev
Backend Developer
NOVEMBER 2022 - JANUARY 2023

- Developed server-side logic for a FinTech lending platform (compassway.org) using FastAPI and Kafka for real-time data processing.
- Integrated payment gateways and identity verification tools, ensuring secure transactions with MongoDB as the database.
- Optimized backend performance using Redis for caching and efficient API responses.

WORK EXPERIENCE

Gastroplustour LTD, Hungary, Budapest

Full Stack Developer — FEBRUARY 2022 - OCTOBER 2022

- Built a responsive website Frontend (gastroplustour.com) with an online booking system using React and TypeScript.
- Designed a custom CRM with Nest.js and PostgreSQL to manage reservations and client data, simplifying administrative tasks.
- Enhanced deployment workflows with Docker Compose and GitHub Actions for CI/CD.

PM Digital Transformation, Ukraine, Kiev

Backend Developer — SEPTEMBER 2021 - JANUARY 2022

- Contributed to a job portal (jobmeteor.com) and e-commerce platform, focusing on scalable backend solutions with Django and MySQL.
- Worked closely with design and QA teams in Jira to deliver projects on time.

Amara Club Marine Hotel, Turkey, Antalya

Web Developer — SEPTEMBER 2019 - MAY 2021

- Developed and integrated additional modules into the hotel's CRM system, optimizing booking management and improving staff efficiency.
- Ensured the stability and security of the web platform through regular testing and code updates.
- Collaborated with the marketing team to introduce features such as online chat support, feedback forms, and analytical dashboards.
- Utilized technologies such as HTML, CSS, JavaScript, PHP, and specific CRM tools to automate routine processes and enhance customer interactions.

EDUCATION

Bachelor's Degree of Software Engineering — 2023 - 2025

National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute"

Focus: Multimedia and Information Retrieval Systems

Associate's degree — 2021 - 2023

IT Step Academy, Ukraine, Kiev

Focus: Algorithms and Data structures, Python, JavaScript, modern frameworks, databases, and cloud deployment

Programming Course — 2019

Let`s Coding, Turkey, Istanbul

Focus: Web development in PHP and HTML, CSS3
